

GAME RULES

- 1** Place the mice on the numbers on the game board as indicated in the selected challenge. To get you started, the positions of some cheese pieces are shown in the easier levels.
- 2** To solve the challenges place all the cheese puzzle pieces on the game board, creating a big square cheese slice with the mice looking through the holes:
 - Cheese pieces can't overlap mice or the edge of the grid.
 - Creating empty holes is allowed by placing two cheese pieces with their cut outs next to each other. However, half holes inside of the middle of the cheese are not permitted. Half holes are only allowed on the edge of the game board.
- 3** There is only 1 possible solution for each challenge, which you can find in the booklet.
